

LUCIDPREP

Grade 10 Health Education

U.S. Standards-Aligned Course Syllabus

HEALTH EDUCATION

Health Education

36 weeks • 4 modules • 70% mastery

Curriculum Architecture

This course is organized as 36 weeks across four 9-week modules. Every week follows LucidPrep's established secondary learning cycle: AI Instructor opening, objectives, vocabulary, five warm-ups, main lecture, two short tutorial videos, AI Instructor presentation, two homework sets, and a 40-question assessment.

Mastery standard: 70%+. Students below mastery review the instructional presentation and may retake the assessment, matching the existing LucidPrep secondary model.

U.S. Alignment Note

Health is a graduation requirement in most U.S. states, though credit amounts vary (often a semester). The National Health Education Standards (SHAPE America), revised in 2024, are the dominant national reference and guide most state frameworks. This 36-week course can run as a full year or be accelerated into a semester. Sensitive topics are presented with an age-appropriate, help-seeking focus.

Prepared for LucidPrep • Curriculum Planning Edition • 2026

Common Instructional & Assessment Model

Weekly Learning Cycle

Step	Component	Description
1	Opening / Domain Overview	~2-minute AI Instructor introduction
2	Objectives + Vocabulary	Student-facing outcomes and core terminology
3	Warm-Up	5 questions with explanations
4	Main Lecture	Concept instruction, models and examples
5	Video Tutorials	2 short instructional videos
6	AI Instructor Presentation	Visual models, examples, strategies and applications
7	Homework	Two sets of 5 questions
8	Weekly Assessment	40 questions; 70% mastery
9	Review / Retake	Below mastery → review presentation → retake

Assessment Philosophy

Assessment is continuous and mastery-based. Each week pairs low-stakes practice (five warm-ups and two homework sets) with a 40-question weekly assessment. Students scoring below 70% review the instructional presentation and retake, so mastery is reached before progressing. Module assessments at Weeks 9, 18 and 27 and a cumulative final at Week 36 measure retention and synthesis.

HEALTH EDUCATION

Grade 10 Health aligned to the
National Health Education
Standards

This 36-week course is designed around **the National Health Education Standards (NHES) and CDC health-education guidance, emphasizing functional knowledge and the transferable skills of health literacy**. It is a full-year curriculum with four nine-week modules and a consistent LucidPrep mastery workflow.

Grade	Grade 10
Course	Health Education
Duration	36 weeks
Structure	4 modules × 9 weeks
Weekly assessment	40 questions
Mastery threshold	70%
Module assessments	Weeks 9, 18, 27
Final assessment	Week 36

Course Learning Outcomes

- Apply health skills — decision-making, goal-setting, communication and advocacy — to real situations.
- Analyze influences on health and access valid health information.
- Explain and support mental, emotional and social wellbeing.
- Make informed choices about nutrition, fitness and personal health.
- Apply safety, prevention and community-health knowledge responsibly.

HEALTH EDUCATION

Module 1 — Foundations of Health & Wellness

Week	Topics	Students will be able to	Standards
1 — Introduction to Health & Wellness	Dimensions of health, wellness continuum, health literacy	Define health and analyze the dimensions of wellness	NHES 1
2 — Health Skills & Decision-Making	Decision-making models; goal-setting	Apply a decision-making process to health choices	NHES 5/6
3 — Analyzing Influences	Internal/external influences, media, culture	Analyze influences on health behavior	NHES 2
4 — Accessing Valid Information	Reliable sources; health services	Access valid health information and services	NHES 3
5 — Communication & Refusal Skills	Interpersonal communication, refusal, conflict resolution	Demonstrate communication and refusal skills	NHES 4
6 — Self-Management	Health-enhancing behaviors; stress basics	Practice health-enhancing self-management	NHES 7
7 — Advocacy & Health Literacy	Advocating for self and others	Advocate for personal and community health	NHES 8
8 — Setting Wellness Goals	Building a personal wellness plan	Set and monitor a personal health goal	NHES 6
9 — Module 1 Assessment	Cumulative review of health foundations	Demonstrate mastery of Module 1	NHES 1-8

Module delivery notes. Center each unit on transferable health skills, not just facts. Use scenarios, role-play and personal plans, and pair digital knowledge assessments with real-world skill practice. Present sensitive topics with an age-appropriate, supportive, help-seeking focus.

HEALTH EDUCATION

Module 2 — Mental, Emotional & Social Health

Week	Topics	Students will be able to	Standards
1 — Understanding Mental Health	Mental/emotional wellbeing; self-esteem	Explain factors in mental and emotional health	NHES 1
2 — Managing Emotions & Stress	Stress, coping strategies, resilience	Apply healthy stress-management strategies	NHES 7
3 — Building Healthy Relationships	Family, peers, communication	Analyze characteristics of healthy relationships	NHES 4
4 — Conflict Resolution	Conflict, boundaries, respect	Demonstrate conflict-resolution skills	NHES 4
5 — Bullying & Digital Citizenship	Bullying, cyberbullying, online safety	Analyze strategies to prevent bullying	NHES 2/8
6 — Recognizing Mental Health Concerns	Warning signs; when and how to seek help	Access help for mental-health concerns	NHES 3
7 — Support Systems & Help-Seeking	Trusted adults, resources, advocacy	Identify and use support systems	NHES 3/8
8 — Emotional Wellbeing Plan	Applying skills to support wellbeing	Create a plan to support emotional wellbeing	NHES 6/7
9 — Module 2 Assessment	Cumulative review of mental and social health	Demonstrate mastery of Module 2	NHES 1-8

Module delivery notes. Center each unit on transferable health skills, not just facts. Use scenarios, role-play and personal plans, and pair digital knowledge assessments with real-world skill practice. Present sensitive topics with an age-appropriate, supportive, help-seeking focus.

HEALTH EDUCATION

Module 3 — Nutrition, Fitness & Personal Health

Week	Topics	Students will be able to	Standards
1 — Nutrition Basics	Nutrients, food groups, dietary guidelines	Analyze nutritional needs and choices	NHES 1
2 — Healthy Eating & Food Labels	Reading labels, balanced meals, hydration	Use information to make healthy food choices	NHES 3/5
3 — Physical Activity & Fitness	Benefits of activity; components of fitness	Explain the benefits of physical activity	NHES 1
4 — Body Systems & Personal Health	Body systems overview; hygiene	Describe how habits affect body systems	NHES 1
5 — Sleep & Healthy Habits	Sleep, screen time, daily routines	Analyze habits that support health	NHES 7
6 — Diseases & Prevention	Communicable/noncommunicable disease; immunity	Explain disease-prevention strategies	NHES 1
7 — Reducing Health Risks	Risk factors and lifelong wellness	Analyze how to reduce long-term health risk	NHES 1/8
8 — Personal Health Plan	Integrating nutrition, activity and prevention	Design a balanced personal health plan	NHES 6
9 — Module 3 Assessment	Cumulative review of personal health	Demonstrate mastery of Module 3	NHES 1-8

Module delivery notes. Center each unit on transferable health skills, not just facts. Use scenarios, role-play and personal plans, and pair digital knowledge assessments with real-world skill practice. Present sensitive topics with an age-appropriate, supportive, help-seeking focus.

HEALTH EDUCATION

Module 4 — Safety, Substances & Community Health

Week	Topics	Students will be able to	Standards
1 — Injury Prevention & First Aid	Safety, first aid, CPR basics	Demonstrate basic first-aid and CPR knowledge	NHES 7
2 — Personal & Online Safety	Risk situations; digital safety	Apply strategies to stay safe	NHES 7
3 — Understanding Substances	Alcohol, tobacco/vaping, other drugs — effects	Analyze the effects of substance use	NHES 1
4 — Substance-Use Prevention	Refusal skills, influences, decision-making	Apply refusal and decision-making skills	NHES 2/4/5
5 — Environmental Health	Environment and health; community resources	Analyze the environment's effect on health	NHES 1/8
6 — Consumer Health	Evaluating products, services and media claims	Evaluate health products and information	NHES 2/3
7 — Community & Public Health	Public health; advocacy; resources	Advocate for community health	NHES 8
8 — Capstone Health-Advocacy Project	Applying all skills in an advocacy project	Plan and present a health-advocacy project	NHES 8
9 — Final Assessment	Cumulative final across all modules	Demonstrate mastery of the full course	NHES 1–8

Module delivery notes. Center each unit on transferable health skills, not just facts. Use scenarios, role-play and personal plans, and pair digital knowledge assessments with real-world skill practice. Present sensitive topics with an age-appropriate, supportive, help-seeking focus.

Assessment & Alignment

Assessment Blueprint

Warm-ups: weekly • Homework: weekly • Weekly assessment: 40 questions • Module assessments: Weeks 9 / 18 / 27 • Final: Week 36 • Below 70%: instructional review and retake.

Standards Alignment

Primary framework	National Health Education Standards (NHES 1-8)
Health Skills (NHES 2-8)	Analyzing influences; accessing valid information; interpersonal communication; decision-making; goal-setting; self-management; advocacy.
Recurring Concepts	Health literacy; personal responsibility; risk reduction; evidence-based decisions; wellbeing.
State mapping	Health is a graduation requirement in most states (credit amounts vary; often a semester). The National Health Education Standards guide most state frameworks.

Content Production Guidance

Author each week around a health skill and topic: 5 warm-ups, a concept lecture, 2 videos, an AI presentation modeling the skill (e.g., refusal, decision-making), 2 homework sets, and a 40-question knowledge assessment. Pair digital assessments with real-world skill-practice tasks. Tag items to the National Health Education Standards.

Curriculum Basis & Source Notes

This Grade 10 Health syllabus was generated from the National Health Education Standards (NHES) and CDC health-education guidance. It emphasizes functional knowledge and the transferable skills of health literacy.

Primary reference	National Health Education Standards (SHAPE America, 2024) — Standards 1–8.
Framework basis	CDC Health Education Curriculum Analysis Tool (HECAT) topic guidance.
State cross-check	Representative state health-education standards (e.g., California, Texas, New York).
LucidPrep alignment	Mapped to LucidPrep's 36-week, 4-module structure with 70% mastery.

Recommended next production step. Finalize the scope for sensitive topics per local policy, then commission skills-based item banks and real-world practice tasks tagged to the NHES.
